

Workshop On Communication and Personality Enhancement Programme - Dr. Renu Girotra

Dr. Renu Girotra took an initiative to organise 2 activities for personality enhancement. First activity was a combination of English communication and team activity wherein the students were given jumbled cuttings of 3 small paragraphs which they had to compile. Second activity was a game 'Seven stones' for a team building activity. The takeaways were about the importance of team (spirit of team more than the individuality), direction, leading and using everyone's strength as a team for the accomplishment of goals. (28.09.2019)
