

Awareness on Hygiene for Canteen Staffs at CARE

Date: 01.11.2014

Venue: Food Court, Canteen (Opp. A Block), Canteen (at D Block) and Cafeteria, College Block, Chettinad Hospital and Research Institute, Kelambakkam.

Theme: Health, public sanitation and personal hygiene

Summary: NSS CARE volunteers visited the four cafeterias of Chettinad Hospital- Food court, Canteen (Opp. A Block), Canteen (at D Block) and Cafeteria, College Block and made all the canteen staff aware on cleanliness and hygiene. The volunteers have direct interaction with the cook staffs, serving staffs, coffee and juice vendors for the development of their knowledge on safe practices for cooking, serving and preserving the food items. Although these places are already maintained very nicely and upto the standards expected by CHRI, the NSS Programme Officers-Dr. Koyeli and Mr. Venu Gopala took the initiative to monitor the condition on spot with the help of NSS volunteers.
