Online Education

1. Does all programs/courses were completed on time.	Yes
--	-----

2. Measures taken to complete the syllabus of courses and programs.		<p>Like all other sectors, higher education also faced severe challenges during the COVID-19 pandemic which crippled the regular mode of teaching and learning. Institutions were suddenly pressurized to find innovative methods to teach, interact and evaluate, focusing on the curriculum coverage without compromising the objectives of the program outcomes. CARE had in place a fully information technology-enabled eco system (24x7 LAN and Wi-Fi broad band connectivity and an in-house developed e-learning platform, Chettinad Learning Management System (LMS)) for effective teaching and learning. Audio visual modules developed for theory and practical classes were available in this platform for "anytime anywhere access". A total of 1873 UG and 308 PG students benefitted from online teaching. This preparedness of CARE for online teaching and learning, for which CARE has been duly awarded QS I. Gauge E Lead (E-Learning Excellence for Academic Digitization) certification, gave a jump start for various academic activities during the COVID-19 lock-down period. CARE has well-structured procedures for development of e-content by teachers and to facilitate the use of Open Educational Resources (OER). Training was imparted to faculty members to conduct high quality, web compliant audio and video recordings using Premiere Pro software and perform post recording editing and processing as well as the use of Camtasia and Knowledge Presenter Pro Version XII. to produce highly customized, interactive, engaging e-content. The well-defined SMART (Specific, Measurable, Achievable, Relevant and Time oriented) course outcomes mapped with the program outcome-enabled the teachers to be highly focused on the curriculum completion. The heads of departments were periodically monitoring the progression of syllabus coverage. The contents of every lecture were clearly laid out prior to enable students to be more focused. In the initial stages of the pandemic the education was 100 percent online on zoom platform which was strengthened with unlimited timing with capacity of up to 500 participants. For seamless communication, Microsoft Teams Platform was procured to bring virtual face to face connections, assignments, exams, and conversation in to single environment. Connectivity was one of the major problems faced by the students, especially from remote places (Interior villages and Andaman) For them bandwidth-rich video contents were replaced by text rich material for the syllabus coverage</p> <p>As the lockdown was relaxed and the students were permitted to visit the institute, hybrid education was followed, which enabled the students to attend a combination of online theory classes and in campus practical classes while following maximum safety precautions. Live Demonstration of Practical exercises were conducted. Students were also encouraged to present seminars online. Assignments, viva and MCQs-based exams were evaluated through Google classrooms. Online Proctored Examination was conducted by sharing the questions on Google classroom and the students were monitored using Microsoft teams. Webinars, Conferences, Workshops, CME programs were organized in virtual mode for further augmentation and understanding of the curriculum. Online student feedback enabled the faculty to fine tune the delivery for covering curriculum pertaining to the specific outcomes of the programs. Students were encouraged to enroll in various courses in Swayam/NPTEL platform for value addition.</p>	
3. The period of delay in completion of syllabus (in months).		0	
4. The period of delay in conducting exams (in months).		2	
Portal Name	No. of students offered online courses which have credit transferred to transcript	Total no. of online courses which have credit transferred to the transcript	Total no. of credits transferred to transcript
