VISION

To offer transformative education and enable individuals to become responsible, empathetic global citizens who contribute towards a sustainable future.

MISSION

- Create a nurturing and supportive environment to ensure students a fulfilling, demanding and intellectually stimulating experience.
- To establish a team of well-qualified faculty that will enable the institution to grow holistically.
- Enable students to imbibe values, cultivate a desire for lifelong learning and maximize their potential through establishing a network of activities.
- Prepare students for employment in the global arena.
- Provide the best state of the art infrastructure.
- Offer quality health services to all strata of society.
- To facilitate innovative and interdisciplinary research and share knowledge and understanding with the society.
- To provide an ecosystem for innovation, invention and entrepreneurship
- To transform the fruits of research into the knowledge economy.
- To contribute to the social, economic and national developments.

ABOUT CARE

Chettinad Academy of Research and Education (CARE) was conferred the status of Deemed to be University u/s 3 of the UGC Act 1956 in the year 2008 and since then, it has been contributing significantly to the society as an Institute for higher learning and research in the field of Medicine, Allied Health Sciences and Nursing.

CARE has been approved by MCI, INC, TNNMC, AICTE, COA, BCI and PCI, accredited with grade 'A' by NAAC, 98th in NIRF Ranking, conferred with 12B status by UGC, accorded SIRO status by DSIR, awarded a star by MHRD's Innovation Cell, ISO 9001:2015 certified, appreciation by AICTE for Clean & Smart Campus, stands 9th in Country in the ranking by UI Green Metric, awarded Diamond rating by QS I-GAUGE, awarded E-LEAD certification by QS I-GAUGE for Exceptional E-Learning methods, ranked 6th best private medical University by the Outlook ICARE university ranking 2020 and 10th best private medical college in South Zone by the Week – Hansa Research Survey 2020 Ranking.

In conformity with the motto of the University, "Capability, Character, and Commitment", the academic programs offered are professional, job oriented, and innovative. CARE offers 74 Academic programs in the Faculty of Medicine, Nursing and Allied Health Sciences (AHS), Pharmacy, Physiotherapy, Architecture, Commerce, and Law. Most of the programmes offered are interdisciplinary and are as per the emerging needs.

Currently, CARE has about 2500+ students pursuing their UG, PG, and Ph.D. education. First-generation graduates from rural and semi-urban areas contribute to a significant proportion of our students. Equal opportunity is provided for students of all categories including socially and economically backward classes. Deserving students are offered up to 100% as scholarship. The anti-ragging committee ensures the campus environment student-friendly. Placement assistance is provided to students by counselling and placement cell.

CARE offers excellent teaching with the latest teaching aids and methods. The Intellectual Capital of CARE comprises qualified, accomplished, and committed teachers and a well-stocked library with books, journals, E-resources and databases that form the backbone of the CARE. Faculty update their knowledge on contemporary teaching-learning techniques through faculty development programs, workshops, and CMEs.

CARE has established State of art instrumentation facility for biomedical research and a CPCSEA approved animal house facility for translational research. To promote quality research, CARE offers JRF for full-time PhD scholars, Post-doctoral fellowship and seed money for faculty research. Short research projects are incorporated in the undergraduate curriculum and medical undergraduates are encouraged to take up the ICMR Short term studentship. CARE has 1100+ research publications, has 36 patent publications. For promoting and facilitating our research and training capabilities, CARE has 50+ active MoUs with renowned academic institutions such as Linköping University, Sweden, ReGenera Research Group for Aging Intervention & Milano Medical Health Aging Unit, Italy besides MOUs with industries.

CARE has started attracting extramural funding from Government agencies like DST, DST Indo-Italy, DST-ECR, DBT, CSIR, ICMR, RSSDI, etc, for research projects in all emerging areas.

The university publishes Chettinad Health City Medical Journal, a quarterly, indexed and peer-reviewed scientific journal. CARE has a strong focus on E-Learning and has equipped students with laptops/ tablets and has Chettinad Learning Management System (LMS), a Networked Learning Environment (NLE), in which students can view instructional content, collaborate with educators, view their academic performance and access learning resources anytime from anywhere.

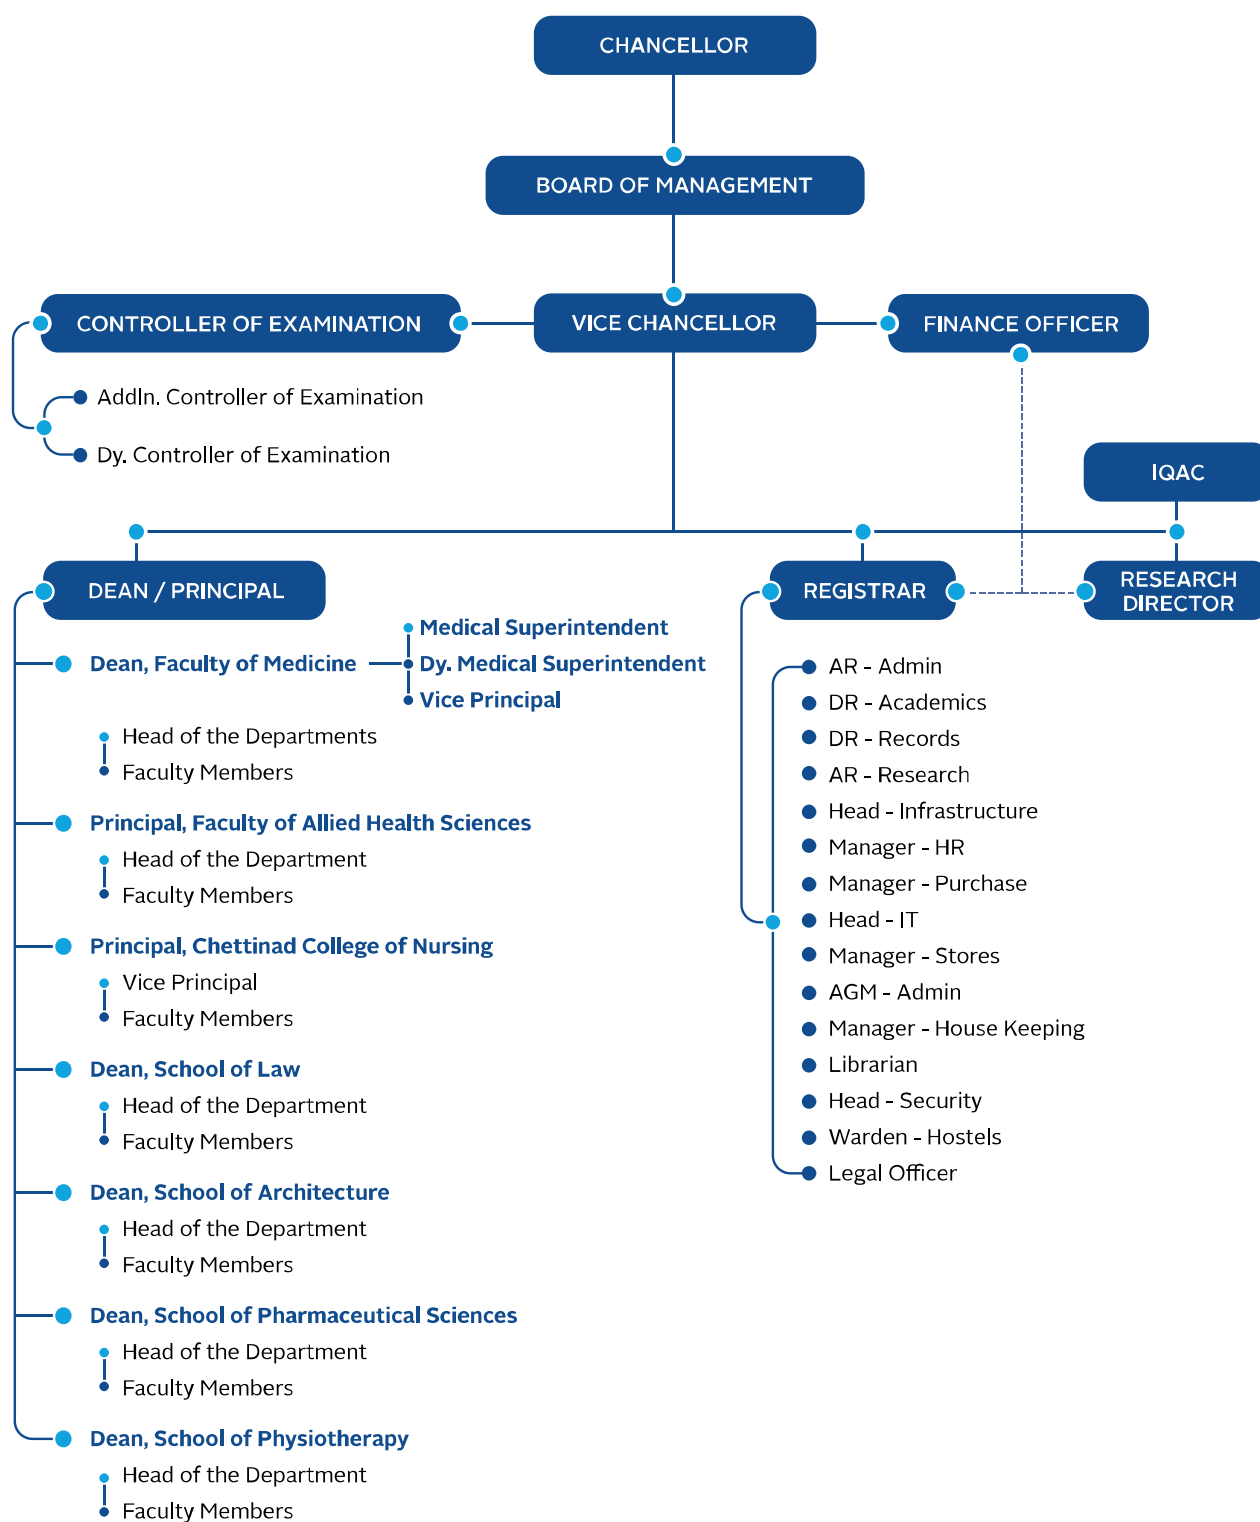

Commitment to society by CARE is well exemplified by the health promotion extension activities in the adopted villages. CARE also collaborates with the government and NGOs in all health initiatives in these villages.

Holistic development of students is ensured by participation in sports, games, and cultural activities. To facilitate this, an indoor stadium, swimming pool, football and cricket grounds, tennis and basket ball courts, 400m synthetic track and a gymnasium are available for the students. Student fest "Fusion Chettinad" is an annual event organised by the students every year that has participation from all over Tamil Nadu. Another recent initiative of the students has been an internal e-Newsletter "CARE KONNECT" to keep the students abreast of all the campus activities. Two states of the art auditoria with 1200 and 500 seating capacity, equipped with advanced acoustics are available on the campus. Our students have received several awards in inter-collegiate events. The university takes pride in its green campus. The use of renewable energy sources, water recycling, vehicle-free green zones and cycles for in-campus mobility make the campus eco-friendly.

The self-contained wi-fi enabled campus houses Hospital, academic and administrative blocks, separate hostel for girls, boys and apartments and villas for staff and faculty. Campus security is ensured through the turnstile, CCTV camera, and access control at strategic locations. In addition to the above, Bank, ATMs, food courts, stationery shop, gymnasium and beauty parlor make life at CARE enjoyable.

CARE with the unique advantage of interdisciplinary faculty, well-established infrastructure, state of the art research facilities and innovative teaching, training and research programs is in the constant pursuit of its journey of achieving excellence in "Teaching and Research in Interdisciplinary and Emerging Areas in Medicine, Health Care, Law & Architecture".

INFRASTRUCTURE AND LEARNING RESOURCES

SELF CONTAINED CAMPUS

ECO-FRIENDLY CAMPUS

Eco-Friendly Environment

CLEAN & GREEN CAMPUS

- Around 50 Acres of Greenery
- Over 7000 Trees
- Over 100 Species of Plants and Trees
- Nearly 10 Acres of Landscaping
- Green walls (with plants)
- Motor Vehicle Restricted Area
- Cycles for Students and Patients' Attenders
- Battery operated Car for visitors commuting

An Eco-friendly Campus is a place where education is coupled with environment-friendly practices to promote sustainable and eco-friendly practices. The green campus concept offers an institution the opportunity to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to the environmental, social, and economic needs of mankind.

- Saving Energy
- Waste Water Management
- Solid Waste Management
- Rainwater Harvesting
- Reducing the Hard Readout Material towards making Offices Paperless
- Energy Audit

Are being adopted in this campus which contributes to Eco-friendliness.

TRANSPORT

Comfortable and convenient air-conditioned bus transport is provided to the students residing in & around the city of Chennai, for easy transportation to the institute and back. Pollution-free battery-driven vehicles are operated for transport within the campus. Also, bicycles are available for use within the green zone areas of the campus for students & faculty.

Air-Conditioned Bus

POLLUTION FREE BATTERY DRIVEN CARS AND BICYCLES FOR TRANSPORTATION INSIDE THE CAMPUS

Electric cars run on electrically powered engines and hence there is no need to power or lubricate the engines with hydrocarbons. The maintenance cost of these cars is very minimal compared to that of a conventional Fuel Operated or a Hybrid Car. Electric cars put a curb on noise pollution as they are much quieter. Electric motors are capable of providing smooth drive with higher acceleration over longer distances. Increased transportation efficiency is the best place to start efforts to reduce emissions of carbon dioxide (CO₂), which is the primary cause of global warming.

Battery Cars & Bicycles

With a good cycle network with Park and Ride facility, cyclists may join or leave the bike bus at various points along the route. Commuting in the cycle by the students has become popular, safer, and enjoyable. Riding to various places on the campus boosts energy and a level of emotional security instilled after cycling, particularly for female students.

SAFE AND SECURE CAMPUS

Closed-circuit television (CCTV), also known as video surveillance is the use of Video Cameras to transmit a signal to a specific place, on a limited set of monitors. Through point-to-point (P2P), point-to-multipoint (P2MP), wired links every inch of the campus is monitored from Single Point. over 600 cameras have been installed on the campus.

Round the Clock Security Personnel: Nearly 68 Security Personnel have been deployed at various sensitive points all over the campus who manually check visitors, when needed and control movement of vehicles inside the campus. Scanners at appropriate places enable curtailing students carrying mobile phones inside the Lecture Halls and Class Rooms.

Complaint Management System: CMS of the Infrastructure is operated with a Common Complaint Desk enabled with a Hot Line which receives complaints, tickets raised, deputed specific personnel or Engineers to attend to it. The Complaint is closed after verifying with the complainant about the status as completed'.

TURNSTILE AND ACCESS CONTROL

The University area of the campus is completely cordoned off from the Hospital block wherein, only Students and Staff can gain entry into the University. 14 Nos. Turnstiles are installed at various locations of the line separating the Hospital and the University. Visitors and Contract Workers are prompted to register their identity and the place where they want to visit and whom to visit and will be allowed to gain access to the University area with proper guidance.

WIFI ENABLED CAMPUS

Our University Campus and Hostels are Wi-fi enabled. Students can access the internet at whatever place they are and make use of the LMS Facility as well.

WIFI Campus

GREEN ZONE, TOBACCO AND PLASTIC FREE ZONE

Green Campus is a Cleaner, Safer and Healthier Place to Live and Work. Nearly 40% of the campus is maintained as Green Zone. No vehicles are allowed inside this area. Only Battery operated Cars are used to commute Patients. Electric bikes are used by the Maintenance Staff and Security Personnel to go on rounds within the campus.

Nearly 200 meters in the vicinity of the campus is demarcated as Tobacco Free Zone. Vendors and shops around the campus are advised not to sell tobacco products.

Green Zone

MULTI CUISINE FOODCOURT

A Multi-cuisine Food Court with 6 Food Counters, a juice Counter, and a Coffee Shop is operated inside the premises. Students and Staff of our University make use of this facility. Along with this contiguous facility, there are counters of multiple food vendors. This provides a common area for self-service, a common dining area with a large screen television facility provides the users of Food Court entertainment while eating. Cafe Coffee Day Kiosk is operated inside the Campus with access to the public.

Multi Cuisine Food Court

BANK AND ATM's

The campus has a full-fledged Bank – Axis Bank, with an Extension Counter where payment of Students' Fee is routed through. With the general public being able to make use of this bank it becomes easier for the Patients' Visitors to make use of the ATM facility of this bank for the hospital expenses. Besides, an HDFC ATM also functions inside the premises.

Bank & Atm's

UNISEX SALON

Men's Beauty Parlour, Ladies' Beauty Parlour, and a Spa are housed inside a Unisex Salon, a facility that only the staff and students can make use of. There is also a salon that functions inside the Boy's Hostel and a Beauty Parlour in the Girls' Hostel.

Unisex Salon

RAINWATER HARVESTING

A 200 KL Pond is arranged in the North East Corner of the Campus to Conserve Rain Water. Nearly 14 RWH Pits have been established all around these replenished Campus. These 2 structures charge the Ground Water Level whenever it rains and during monsoon season.

Rain Water Harvesting

WASTEWATER RECYCLING

Black Water from the Toilets and Grey Water from the Canteen and Laboratories are treated in our Sewage Treatment Plants (capacity of 2x600 KLD) - One of SURFACE AERATION TYPE and the other of MBBR TYPE. A total of 1.2 MLD of sewage is being treated per day with 1.1 MLD of Treated Water Generated. In this way, all the sewage (100%) generated is being treated in the 1.2 MLD Capacity plant. The treated water of this plant is used entirely for the campus' Garden Watering. A part of this treated water is softened and is used as make-up water for the Cooling Towers of our A.C. plant. The sludge generated out of the treatment of Sewage is used as manure after drying. This way our campus makes the best use of Recycled Water.

Waste Water Recycling

RO PLANT

A 5 KL / Hr. RO Plant is under operation on our Campus. On average 750 Bubble Top Bottles are bottled in this plant and is used in our premises. This plant also caters to the needs of Drinking Water of other Group Companies.

RO Plant

ESCALATORS

Two sets of Escalators, one in Hospital Block and the other in College Block serve Patients and Students. The Hospital Block connects the Ground Floor of the General Hospital and the 2nd Floor of the Super Speciality Hospital. This not only saves a long walk but also reduces over-crowding of the 4 elevators in the vicinity of this facility. The College Block Escalator enables students and staff to reach the 2nd floor from the Ground Floor.

Hospital & College Block Escalators

AMBULANCE

Our Hospital is supported with 24 x 7 Ambulance Service with 4 Tempo Traveller Ambulances and 4 OMNI Ambulances. Besides, a Dental Ambulance forms a part of this fleet which is used for Camps.

In Campus Hospital & Ambulance

SMART ASSIST PARKING SYSTEM

A smart assist parking facility is available with separate parking for students, faculty, and visitors. the facility has a separate 2 wheeler parking.

Car & Bike Parking

FACILITIES

Well qualified, experienced, and dedicated professionals and a magnificent infrastructure are the hallmarks of this campus.

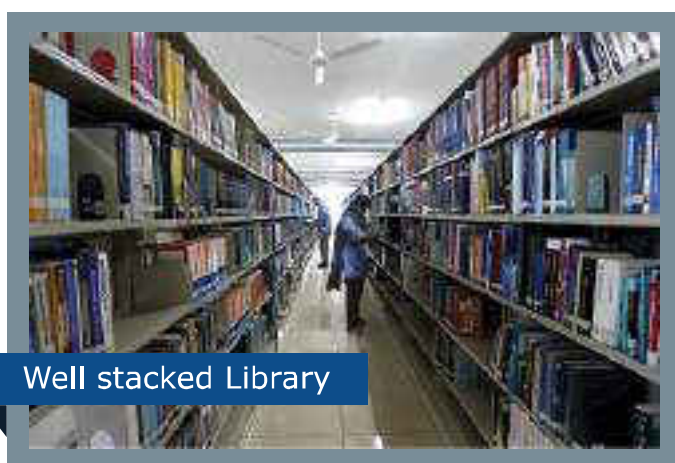

Lecture Theatre

Lecture Theatres

Lecture halls have a seating capacity of 300 students, are air-conditioned, and are adequately equipped with LCD projectors, biometric attendance recorders, and all the state-of-the-art teaching aids. Smart Lecture halls with smart podia are available. Live video sharing facility of surgeries with students in the lecture halls is also facilitated.

Well-stacked Library

Spread over 40,000 square feet, the Central Library at CHRI is an asset to the institution and serves to disseminate knowledge among the medical fraternity. It is well stocked with the latest textbooks, reference books, e-books journals, and online journals, to keep the faculty and the students updated on the recent advances in their field. Virtual library with internet access, Medlar search facilities, media resource services, computerized database access, and E-access are also available for journals and -e-books

Well stacked Library

- Text Books - 37660
- Print International Journals - 164
- Print National Journals - 126
- E-journals - 8142
- E-Books - 182262
- CD & Video - 1972

- Virtual Library & No. of computers and internet speed - 50 (100MBps)
- Uninterrupted power back up - Available
- Library management software - Autolib

Digital Library

Digital Library

Chettinad Hospital & Research Institute maintains an excellent bank of digital learning resources including multimedia CDs. High-speed internet access also is offered to students. Our Digital Library is provided with 40 Computer terminals and an Internet facility with adequate Books, Journals (National and International), E-information Resources viz DVDs are also present. Online access to Books and Journals and Virtual Library facilities are available.

Practical Laboratories

All basic science departments, Nursing & Allied health sciences departments have well equipped and well-ventilated laboratories to provide the student's hands-on training in respective specialties.

Laboratories

Museums

Museums

Most of the departments have a museum to store and exhibit their interesting cases, medical images, models, and preserved specimens. These ensure that the students have a better understanding of the subject, in line with the concept of reinforcing and remembering what they learn by use of visual aids and also help develop their observational skills.

Skills Labs

Improvisations in teaching and advances in technology have led to the emergence of Clinical Skills Laboratories in medical education. They provide a controlled environment where the students can watch and practice their clinical skills before they are put to use in real-life clinical practice. Students are also assessed before they are allowed to practice on real patients. Different types of mannequins are available for the students to practice.

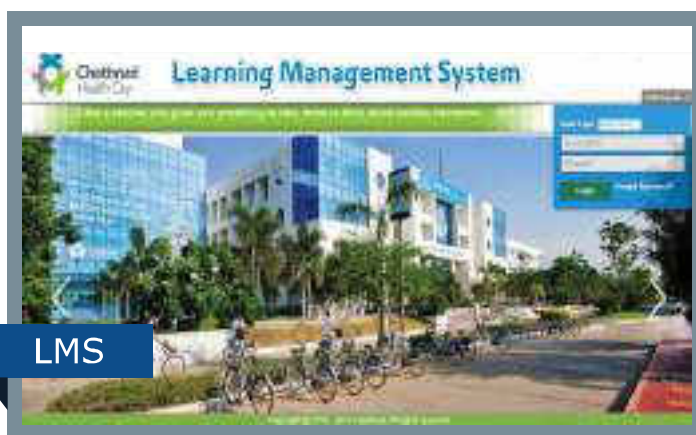

Animal House

The central animal house attached to the department of Pharmacology is registered with CPCSEA and is well maintained, under the care of a competent veterinary medical officer thereby facilitating animal research.

Learning Management System (LMS)

A web-based high-level, strategic solution for planning, delivering, and managing all learning/teaching events including online, virtual classrooms, and instructor-led courses to facilitate "anytime, anyplace" access to learning content.

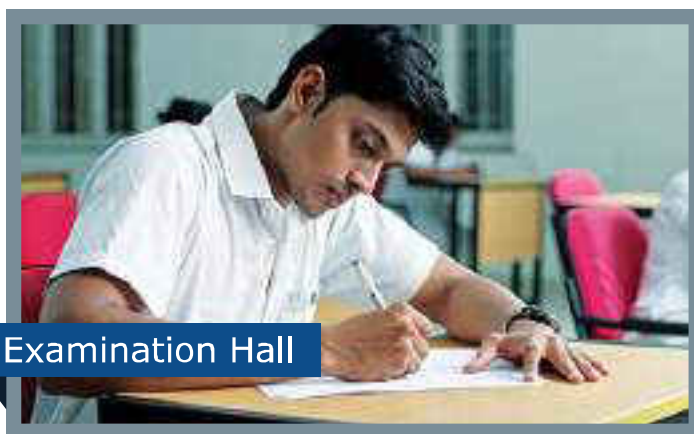

Research Facility

Research Facility

The University focuses on multidisciplinary / interdisciplinary / transdisciplinary research by encouraging the faculty of Allied Health Sciences and the faculty of medicine to interact with each other and solve problems using an interdisciplinary approach. The main objective has been “from Bench to Bedside” research with the allied and basic sciences faculty working on issues identified by the clinical departments and developing simple cost-effective solutions. Facilitating in this process is the Central Research Facility comprising of specialty labs like In vivo animal aging laboratory, Bionanotechnology and high throughput screening laboratory, High performance computing lab for biomarker discovery & drug designing, Tissue culture laboratory, Molecular Diagnostics Laboratory, Microbial Genomics Laboratory, Genographic Laboratory, Preclinical laboratory (Neuropharmacology and Clinical Pharmacology).

Examination Hall

Three spacious and comfortable Examination Halls, with seating capacity varying between 100 and 375 each, are available for smooth and seamless conduct of examinations.

Examination Hall

Acoustic Modeled Auditorium

Acoustic Modeled Auditorium

The pride and the crown jewel of the Chettinad campus where many important programs have been hosted, such as the University convocation, inaugural events, cultural fests, and proshows. Movies are also screened here at this auditorium, which has a seating capacity of 1200 people and is India's numero uno in Interiors, and has won many awards for acoustics. This auditorium is equipped with a 10,000 square feet Banquet hall and its kitchen and is one of its kind.

Internet Access

Broadband connectivity is available throughout the day within the campus. The entire campus is Wi-Fi enabled. All the medical students are provided with a laptop.

Internet Access

Utility Center

Utility Center

To meet all the basic needs and stationery requirements of the students, a utility shop is available within the campus that sells stationery and other items to day requirements of the community.

Hostel

The University offers comfortable living accommodation within the campus, with separate hostels for boys and girls. The hostel mess provides hygienic multi-cuisine to suit diverse tastes and preferences, truly making it a home away from home. The students are provided with WiFi connectivity in every room.

Hostel

Recreation

Recreation

To encourage extra-curricular activities and to ensure a healthy, stress-free life, the University has made sincere efforts to build several sports facilities for the students. At present, the Institute has a basketball court, cricket ground, tennis court, football ground as well as facilities for indoor games namely chess, carom, table tennis, and badminton. There are two ultra-modern indoor stadia. A swimming pool with lifeguards is available in the boys' hostel campus.

Gymnasium

Gymnasium and Yoga Centres are present in the Girls and Boys hostels.

Gymnasium

Swimming Pool

Swimming Pool

A swimming pool is provided in the Boys' Hostel where the inmates of the Hostel make use of the facility in the evenings. A separate Trainer is employed to train and guide the students who use this facility.

Sports

The Chettinad Sports training facility aims to help players improve their sports skills and participate in competitive tournaments in College & at the university level. The facility has the equipment to provide cost-effective training for players to improve their performances.

Later the guest speaker gave a comprehensive lecture on "Recent advances in knee arthroplasty and workshop on primary total knee replacement", which was followed by hands on workshop of total knee arthroplasty was tough and later a question and answer session where the audience had a lot of doubts cleared by our beloved guest speaker. Totally 63 people were benefited in learning the recent advances in knee arthroplasty and they also got hands on training for the same. The event was a great success and emerged as an informative session for all the attendees.

Bone and Joint Day (4th August 2019)

Bone and joint day was celebrated by the Department of Orthopaedics, Chettinad hospital and research institute. The event was successfully celebrated on 4th August 2019. Bone and joint day was observed with the focus on promoting awareness about bone health. Public was taught about the increasing impact of bone and joint disorders and the way to prevent and treat them.

World Arthritis Day (12th October 2019)

World arthritis day was celebrated by the department of Orthopaedics, Chettinad hospital and research institute. The event was successfully conducted on 12th October 2019. This day was celebrated with the objectives of raising awareness about the importance of adopting a healthy lifestyle and encouraging early detection of arthritis.

World Osteoporosis Day (20th October 2019)

World osteoporosis day was celebrated by the department of Orthopaedics , Chettinad Hospital and research institute. The event was successfully conducted on 20th October, 2019. This day was celebrated to create awareness about Osteoporosis and the risk factors involved in general population. Free Bone Mineral Density screening was done for patients above 50 years of age to access the risk of osteoporosis.

Road Safety Week Celebration

The Road Safety awareness programs was conducted by the Department of Orthopaedics, Chettinad Health and Research Institute. The event was successfully conducted from 04 February 2020 to 10 February 2020. It targeted reduction of the deaths due to road traffic accidents, life-threatening injuries and their subsequent consequences. Placards and posters emphasizing on the importance of wearing helmets and protective gears along with the rules that need to be strictly followed were displayed outside the campus by the Postgraduate students. Such programs become extremely crucial and necessary owing to the rising trends of fatal accidents simply due to lack of basic road traffic etiquette. This program was intended for the very same reason and was carried out in a well coordinated and simplistic way. Awareness was created among the patients and general public about road safety in a very palatable and effective manner.

Patient Centered Care By Orthopedics Department

Research at the level of UG students, faculty and Ph.D scholars as short term as well as long term projects. Thrust areas – Congenital anomalies, morphometric analysis, correlation studies of gross anomalies with clinical conditions, effects of drugs on skeletal system.

Name of the Faculty/Student	Title	Funding Agency	Year
Chanemugavalli	Effect of Bisphenol-A on skeletal system of Chick Embryo	CARE	2019
Swathi Priyadarshini	Effect of Chlorpyrifos in the skeletal system development of chick embryos	CARE	2019
Logithkumar	Morphometric analysis of tibial condyles	CARE	2020
Dr.Rajila	Study of Coronary ostia	CARE	2020
G.Vaithianathan	Morphometric analysis of Glenoid cavity	CARE	2020
Abitha	Morphometric analysis of Acetabulum	CARE	2020
Shrivatsan	Morphometric analysis of Femoral condyles	CARE	2020

PHYSIOLOGY

- 2 faculties are currently pursuing their PhD at the Chettinad University on a part time basis : 1. Mrs Saveetha & 2. Dr S Brindha.
- Undergraduate medical student STS project (Reference ID: 2019- 06252) titled "Relationship of WBC count and novel anthropometric indices in hypertensive patients in a tertiary care centre", Indian Council of Medical Research, Government of India (2019).
- Remya K J- Renal biomarkers in coronary artery disease and obstructive sleep apnea.
- V Vivek, A. Ahamed basha and Mainana Kumar - A research project titled "Assessment of safety and efficacy of kabasura kudineer as an add on therapy in mild to moderate COVID -19 patients" (2020). (under process)
- WBC count versus the socioeconomic background in medical students – Dr Remya.
- Effect of obstructive sleep apnea on academic performance of students – Student project : (Guided by Dr Remya).

BIOCHEMISTRY

Research thrust areas as recognized by major funding agencies:

- Cancer Chemotherapy
- Diabetes, insulin resistance syndrome, obesity and cardiovascular diseases

1.	Ms Snaha II nd yr MBBS student	A study to evaluate the correlation between serum Ferritin levels and HbA1c percentage in patients with Type 2 Diabetes Mellitus.
2.	Priyanka II nd yr MBBS student	A study to find out the correlation between urine microalbumin and serum Uric acid levels among Type-2 Diabetic patients with nephropathy
3.	Uniqua Jitracs II nd yr MBBS student	Correlation of serum sodium levels with natriuretic peptide in patients with coronary artery disease.
4.	Principal investigator:Dr Anuradha.G Co-investigator: Dr. Sumathy.S	Comparison between fasting and non-fasting serum samples for routine testing of lipid profile

PHARMACOLOGY

LIST OF RESEARCH PROJECTS

Dr.A.Ruckmani

1. Anti-rheumatoid activity of Sesamin complex in Freund's Complete Adjuvant induced arthritis in Wistar albino rats-Guide (Guide)
2. Semen and spermatozoa characteristics in alcohol users and non-alcohol users-(Guide)
3. Anti-cancer activity of ethanolic extract of Jackfruit (*Artocarpus heterophyllus*) skin on human melanoma and colon cancer cell lines-(Guide)
4. Evaluation of anti-inflammatory activity of combination of Paracetamol and Vitamin C in Freund's complete adjuvant induced arthritis in Wistar albino rats-(Guide)
5. Assessment of endogenous insulin secretory capacity in patients on chronic insulin therapy-Guide
6. Assessment of anti tubercular activity of beetroot juice.
7. Assessment of prevalence of tuberculosis in Cotton industry workers and their response to anti tubercular therapy.
- 8.

Dr.R.Arunkumar

1. Animal Immunization Study with synthetic, recombinant COVID-19 peptides/proteins to determine the Immunogenicity and extract antibodies for development of diagnostic kits, in wistar albino rats and albino rabbits – (Principal Investigator)
2. Evaluation of the performance of rapid diagnostic kit (COVIDAG-SP) in the detection of COVID-19 virus antigen– (Principal Investigator)
3. Evaluation of the performance of rapid diagnostic kit (COVIDAB-SP) in the detection of COVID-19 virus antibody– (Principal Investigator)
4. Evaluation of the performance of India Health Foundation's (IHF's) RT PCR kit for detection of COVID-19 virus (SARS-CoV-2) antigens– (Principal Investigator)
5. Assessment of physiological effects and subjective perceptions of wearing N95 masks and regular surgical masks in healthy adult human volunteers– (Principal Investigator)
6. Clinical Evaluation of Efficacy and Safety of Metformin add-on therapy to Standard ATT in newly diagnosed Pulmonary tuberculosis patients (Guide)
7. Evaluation of anti-inflammatory activity of combination of Paracetamol and Vitamin C in carrageen induced inflammation in Wistar albino rats (Guide)
8. Male and Female reproductive toxicity of Favipiravir in Wistar albino rats (Guide)
9. Evaluation of Safety and Efficacy of Bromocriptine in comparison with Teneligliptin in newly diagnosed Type 2 Diabetes Mellitus (Guide)
10. Study of prescribing pattern of antimicrobials in a tertiary care hospital (Guide)
11. Evaluation of efficacy and safety of add-on therapy of Metformin, Vitamin C and combination of Metformin + Vitamin C to standard ATT in newly diagnosed Sputum Positive Pulmonary Tuberculosis - A Randomized Controlled Trial– Principal Investigator

Dr. Ilamathi

Association of type of diet (vegetarian, non-vegetarian) and sweet consumption with prevalence of type two diabetes mellitus.

Assessment of the effect of Paracetamol and Vitamin C combination in comparison with monotherapy with Paracetamol /Diclofenac in patients with primary osteoarthritis of knee.

Dr. S. Saradha

1. Cross Sectional Clinical Study to Assess the Influence of Chronic Proton Pump Inhibitor Therapy on Serum Magnesium Levels.
2. Lockdown due to COVID-19: Junk food consumption pattern and lifestyle changes among college students in South India.
3. In vitro anti cancer activity of manilkara zapota seed and skin extracts on hela cell lines.
4. Drug Utilization Study In Post Cardiac Intervention Patients In Intensive Care Unit.
5. Assessment of adverse drug reactions in a teaching tertiary care hospital.

Dr. M. Duraivel

1. Study to assess multiple genetic polymorphisms influencing the action of selective anticancer drugs (Ph.D work – Part time)
2. Dihydropyrimidine Dehydrogenase (DPYD) genetic polymorphism in breast cancer patients (CARE funded project)
3. Assessment of the Effects of Quercetin and Vitamin C in comparison with Metformin in Sucrose induced Prediabetes in Wistar Albino Rats
4. Assessment of association between Blood groups and the Prevalence and Severity of COVID-19 in a tertiary care facility
5. Antidiabetic and hypolipidemic effects of Amodiaquine in comparison with Pioglitazone in High Fat High Fructose (HFHF) diet induced Type 2 DM in Wistar Albino Rats

Dr. V. Vivek

1. Antipyretic activity of aqueous extracts of Andrographis paniculata and Carica papaya in Wistar albino rats – A comparative study.
2. Assessment of reproductive toxicity of concoction of Andrographis paniculata in male Wistar albino rats.
3. Assessment of safety and efficacy of Kabasura Kudineer as an add-on therapy in mild to moderate Covid-19 patients.

Other research projects

Male and Female reproductive toxicity of Favipiravir in Wistar albino

1. Anti-rheumatoid activity of Sesamin complex in Freund's Complete Adjuvant induced arthritis in Wistar albino rats
2. Semen and spermatozoa characteristics in alcohol users and non-users
3. Assessment of endogenous insulin secretory capacity in patients on chronic insulin therapy

PATHOLOGY

List Of Research Projects

1. Serial estimation of levels of coagulation factors in different plasma preparations.
Dr Femela Muniraj, Professor; Dr Vijayashree Raghavan, Professor & HOD, Department of Pathology, CHRI
2. The study of BAG-1 and survivin in invasive breast carcinoma NOS type. Dr. Aarthi.K, Prof. R Vijayashree.
3. The role of hematological, coagulation, biochemical parameters and urinalysis in assessing the severity of COVID-19. Dr. Devi, Dr. Vijayashree, Dr. Rajesh, Dr. Priyadarshini, Dr. Mohan, Dr, Prabhu.
4. The impact of E learning in medical education during covid pandemic. Dr. Aarthi.K, Dr. Rajeswari Thivya. Prof. R Vijayashree
5. Correlation of complete haemogram, Iron profile & pH of cord blood of Newborn with APGAR score & gravid status of mother – A Prospective Observational study Dr R Vijayashree, Dr Rajeswari Thivya
6. A cross sectional study to evaluate serum vitamin B12, homocysteine and hematological parameters in ischemic stroke patients at a tertiary care center. Dr. Jane Betsy
7. Expression ID4 protein and its correlation with angiogenesis in breast cancer.
Dr Gayathri
8. Role of glial mesenchymal transition in the pathogenesis of high grade glioma
Dr. Priyadharshini
9. Study of platelet histograms in pseudo thrombocytopenia. Dr. Priyadarshini
10. Relationship between Waist circumference & hematological parameters with pulmonary function tests in overweight & obese individuals. Mr. Ibrahim II year MBBS student
11. Correlation between selected inflammatory biomarkers in geriatric anemias – A case-control study – Dr Deepak Dubey
12. Expression of CD4, CD8 biomarkers in invasive carcinoma of breast with clinicopathological correlation – Dr Divyapriya
13. Histomorphological evaluation of chronic gastritis & an attempt to prognosticate gastric intestinal metaplasia with selective mucin gene expressions – Dr Pooja E Moorthy
14. FREQUENCY OF MICROSATELLITE INSTABILITY IN COLORECTAL CANCERS IN A TERTIARY CARE CENTRE. Dr Vijayashree Raghavan, Professor & HOD; Dr N R Rajesh Kanna, Professor
15. ROLE OF MESENCHYMAL STROMAL CELLS IN EPITHELIAL MESENCHYMAL TRANSITION IN BREAST CANCER. Dr Rajesh Kanna, Professor, Dr Vijayashree Raghavan, Professor
16. Comparison of Growth Factors in Platelet Rich Fibrin & Platelet Rich Plasma preparations in various age groups. Dr Femela Muniraj, Professor; Dr Vijayashree Raghavan, Professor & HOD
17. Expression of HER 2 Neu ,PDL1 and Ki67 in gastric adeno carcinomas. Dr. Meenakshi, Guide : Professor Dr Vijayashree Raghavan, Professor & HOD,
18. Diagnostic accuracy of thromboplastin –plasma cell block technique over conventional smear over a spectrum of fluids and fine needle aspirates. Dr.Sivagama sundari .C.S., Guide : Dr Rajesh Kanna, Professor

19. A pilot study to estimate and compare platelet derived growth factor and vascular endothelial growth factor in platelet rich fibrin across the spectrum of ages in adult healthy volunteers. Dr. Vimal Manickam. D, Guide: Dr. Femela. M, professor, Co-Guide: Professor Dr. Vijayashree Raghavan, Professor & HOD

FACULTY OF ALLIED HEALTH SCIENCES

TEACHING AND LEARNING

Student-centric methods are used for enhancing learning experiences by:

- Experiential learning
- Integrated/Inter-disciplinary learning
- Participatory learning
- Problem-solving methodologies
- Self-directed learning
- Patient-centric and Evidence-based learning
- The Humanities
- Project-based learning
- Role Play

For the effective realization of outcome-based based education, the traditional “teacher-centered” instruction needs to be changed to student-centric instruction (SCI) for increased motivation, greater retention of knowledge, deeper understanding, and positive attitudes to problem-solving. CARE has implemented multifarious SCI activities in its programs by integrating ICT and innovative pedagogies. Students are trained to use technology for gathering and synthesizing information and integrating it with the competencies of skills of inquiry, communication, critical thinking, problem-solving. Brainstorm sessions for teacher orientation for moving away from the “sage-on-stage” to “coach on the side” were conducted for effective implementation of SCI. The programs offered are professional and hence experiential learning forms an essential component of SCI. Active MOUs with industries, hospitals, and research institutes enhance essential learning opportunities. CARE offers many interdisciplinary programs.

Field visits, health camp participation, community postings, summer training, and internships (mandatory requirement) provide real world experiential

Patient-centric evidence-based learning is used for clinical skills development. Bedside teaching, case discussions Clinical presentations help students to understand diseases in detail and look for differential diagnosis.

Self – directed learning is encouraged through elective courses, MOOCs NPTEL/SWAYAM courses, conference presentations, and panel discussions. Participative learning infuses confidence to take a positive approach even towards difficult subjects. Group discussions, seminars, organizing community programs, and interactive teaching with students as the lead are adopted. the outcome of participatory learning of clinical statistics value-added courses) in students' research topics elucidated greater positive vibrations and better course

outcomes

Project-based learning is integrated into PG medicine, PG and UG allied health science, and nursing programs as mandatory research projects to enhance students' ability to question value-added thesis. MBBS students carry out ICMR-funded as well as CARE-funded research projects. Mind mapping on specific topics helps to widen thinking capabilities. Courses on ethics, human values, and psychology Roleplay the learning experience. Computer simulation techniques and skill-simulation labs, many government-sponsored on simulated or real cases, OSCE and OSPE have been implemented to enhance problem-solving capabilities.

Journal club discussions and seminars enable to critically analyze published research and prepare students for life-long learning to practice evidence-based medicine.

RESEARCH AND ORIENTATION

Faculty of Allied Health Sciences (FAHS) is committed to bring excellence in research and aiming to achieve national and international recognition through intra-institutional and inter-institutional collaborative research programs problem-solving abilities and technologies. This multidisciplinary approach includes research in nanoscience bringing nanotechnology, biotechnological progressing genomics and genetic disorders, marine drug formulations and native medicines, bioinformatics and computational programs drug discovery and disease diagnosis, tissue engineering and regenerative medicines, etc, In this regard couple of MoU has been signed which is given below – **National Biodiversity Authority:**

- 1. BS Abdur Rahman Crescent Institute Of Science And Technology**
- 2. Crescent Innovation and Incubation Council**

Faculties are encouraged to bring the extramural fund projects to promote the research in the department. In the current academic session, two extramural funded projects have been brought by the faculties. Dr. Abdur Rahman. Pandian Sokkar has received funds from the Council of Scientific and Industrial Research encounter the SERB-DST respectively. The project applied by Dr. Meenakshi (DBT) and Dr. GS Hikkis DRDO) are under consideration.

3.	Mr. Ramesh Kannan and Mr Rakesh	Green_Ammo	Waste Recycling Plastic Recycling Workshop-plastic brick making workshop 18.01.2020	

Details of Papers Presented

Sl. No.	Name of the Faculty	Title of the Paper/ Author	Details of the conference	Date
1.	Dr. Antara Banerjee	"Comparative analysis of immune status of the primawater-soluble atic colorectal cancer: an in vitro study".	39 th Annual convention of Indian Association for Cancer Research, RGC B, Thiruvananthapuram	February 5-7, 2020
2.	Dr. Antara Banerjee	"Umbilical cord mesenchymal stem cells suppresses genotoxic effects of the dextran sulfate sodium (DSS) induced acute colitis in immunodeficient mice"	Indo-US International Conference on "Bioengineering & Regenerative Medicine-2020", IIT (BHU), Varanasi, Uttar Pradesh, India.	February 27-29, 2020

3.	Dr. Antara Banerjee	"Role of flavonoid quercetin against oxidative stress and aging in <u>Caulobacter crescentus</u> bacteria"	State level one-day seminar on "Biotechnological Advancements in Cancer Research", Loyola college, Chennai, Tamil Nadu, India,	February 4, 2020
4.	Dr. Antara Banerjee	"Efficacy of marine bioactive compound Rhodiola rosea with Trachurus sp. and Quercetin, a flavonoid against induced oxidative stress in <u>Caulobacter crescentus</u> ."	National Symposium on Bio-prospecting from marine resources and biotechnological applications: Opportunities and Challenges (NSBMRB-2019), Sathyabama Institute of Science and Technology, Chennai, Tamil Nadu, India.	July 24-25, 2019
5.	Dr. Antara Banerjee	"Differential expression pattern of oxidative stress and Bioprospecting gene markers in primary human stem cells and primary and metastatic colon cancer cells."	Poster presentation at Indo-US International Conference on "Bioengineering & Regenerative Medicine-2020", IIT (BHU), Varanasi, Uttar Pradesh,	February 27-29, 2020

			India.	
6.	Dr.Kumar Ebenezar K	The challenges of SARS-COV-2 era: More questions that answers in an international webinar organized Bankura Univ., West Bengal	June 2020	
7.	Dr.Kumar Ebenezar K	Pedagogical Approaches & Learning in Higher Education: A post covid challenges in an international webinar organized by Tripura University	24 -25 th July 2020	
8.	Dr.Surajit Pathak	"Crosstalk between microRNA122 and AEG1 protein colon cancer".	39 th Annual convention of Indian Association for Cancer Research, RGCB, Thiruvananthapuram	February 5-7, 2020
9.	Dr.Surajit Pathak	"Role of microRNA in colon cancer".	UGC National Conference, University of Kalyani, West Bengal, India.	March13, 2020
10.	Dr.Agnishwar Girigoswami	<u>K. Harini</u> , P. Sharmiladevi, KoyeliGirigoswami, AgnishwarGirigoswami*, ROS Quantum Yield Improvement of Rhodamine Using NiosomalNanoformulation for the Inactivation of MDR Bacteria,	International Conference on Advanced Nanomaterials for Energy, EngineMarch 13Biological and Medical Applications, held at Chettinad College of Engineering and Technology, Karur. (Best Oral	12 th -13 th Dec 2019

			Presentation)	
11.	Dr.Agnishwar Girigoswami	<u>G. Poornima</u> , P. Sharmiladevi, KoyeliGirigoswami, AgnishwarGirigoswami*, Nanoformulation of Naringenin for the ROS Scavenging with Improved Solubility,	International Conference on Advanced Nanomaterials for Energy, Engineering, Biological and Medical Applications, held at Chettinad College of Engineering and Technology, Karur.	12 th -13 th Dec 2019
12.	Dr.Koyeli Girigoswami	<u>Kiran V, Karthikeyan R</u> , Yuvaraj B, Balaji S and KoyeliGirigoswami*, Cerium oxide nanoclusters application in ROS nanobiosensing,	International Conference ,on Synergy of Sciences, held at SASTRA Deemed University, Tanjavur, Tamilnadu. (poster presentation)	27 th -29 th Feb 2020
13.	Dr.Koyeli Girigoswami	Priyanka B, Keerthana S and KoyeliGirigoswami*, Studies on inhibition of amyloid aggregates of prion peptide 106-126 using small stress molecules (SSMs),	International Conference on Recent Trends in Bionanotechnology, Energy and Environment, held at B.S.Abdur Rahman Crescent Institute of Science and Technology, Vandalur,	18 th -19 th Feb, 2020

			Chennai. (poster presentation)	
14.	Dr.Koyeli Girigoswami	<u>K. Harini</u> , P. Sharmiladevi, KoyeliGirigoswami, AgnishwarGirigoswami*, ROS 15.Quantum Yield Im16.provement of Rhoda17.mine Using Niosomal18.Nanoformulation for the Inactivation of MDR Bacteria,	International Conference on Advanced Nanomaterials for Energy, Engineering, Biological and Medical Applications, held at Chettinad College of Engineering and Technology, Karur. (Best Oral Presentation)	12 th -13 th Dec 2019
15.	Dr.Koyeli Girigoswami	<u>G. Poornima</u> , P. Sharmiladevi, KoyeliGirigoswami, AgnishwarGirigoswami*, Nanoformulation of Naringenin for the ROS Scavenging with Improved Solubility,	International Conference on Advanced Nanomaterials for Energy, Engineering, Biological and Medical Applications, held at Chettinad College of Engineering and Technology, Karur.	12 th -13 th Dec 2019
16.	Dr.Koyeli Girigoswami	Nishakavya S, Deepa R, Divya V, Ajith S, <u>Vijayadurga LVV</u> , KoyeliGirigoswami, Synthesis, Characterization and in vitro Antimicrobial Evaluation of Copper-Doped Zirconia Nanoparticles,	International Conference on Advanced Nanomaterials for Energy, Engineering, Biological and Medical Applications,	12 th -13 th Dec 2019

			held at Chettinad College of Engineering and Technology, Karur.	
17.	Dr.Koyeli Girigoswami	M.G. Ramakrishna, Siddharth M and Koyeli Girigoswami, The efficacy of polymer coated zinc oxide nanoparticles in UV blocking using zebrafish embryo model,	International Conference on Advanced Nanomaterials for Energy, Engineering, Biological and Medical Applications held at Chettinad College of Engineering and Technology, Karur.	12 th -13 th Dec 2019
18.	Dr.Koyeli Girigoswami	<u>Kavithasri A</u> and KoyeliGirigoswami, Application of Cerium oxide nanoclusters as ROS nanobiosensor,	International Conference on Applications of Biotechnology and Nanotechnology (ICBN 2019), Sponsored by Tamil Nadu State Council for Science and Technology (TNSCST), held at B.S. Abdur Rahman Crescent Institute of Science and	30 th September-1 st October, 2019

			Technology, Vandalur, Tamil Nadu, India.	
19.	Dr.Koyeli Girigoswami	KoyeliGirigoswami, Nanomaterials, their biophysical behaviour and analysis for medical applications,	International Conference on Advanced Nanomaterials at Chettinad College of Engineering and Technology at Karur on (Invited Lecture).	12.12.2019 and 13.12.2019
20.	Dr.Koyeli Girigoswami	<u>Kiran V, Karthikeyan R, Yuvaraj B, Balaji S and KoyeliGirigoswami*</u> , Cerium oxide nanoclusters application in ROS nanobiosensing,	International Conference on Synergy of Sciences, held at SASTRA Deemed University, Thanjavur, Tamilnadu. (poster presentation)	27 th -29 th Feb 2020
21	Dr.Shoba Narayan	M. Sivakami, Ramachandran Murugesan and Shoba Narayan 'Design and Development of Nanoparticle based methods for gastric cancer imaging and therapy' (Poster Presentation)	International Conference on Synergy of Sciences SASTRA Deemed University, Thanjavur, Tamilnadu	27.02.2020-29.02.2020
22	Dr.Shoba Narayan	JinoAffrald R, Naseem Banu SP, Deepika A, Kanal A S, and Shoba Narayan 'Biopolymer functionalized metal nanoparticles for detection of adulterants in milk' (Poster presentation)	International Conference on Synergy of Sciences SASTRA Deemed University, Thanjavur, Tamilnadu	27.02.2020-29.02.2020

23	Dr.Shoba Narayan	JinoAffrald, Rathi Usha K and Shoba Narayan 'Environ –Sensitive Gold Nanostructures Encapsulated with Natural Prodcut Chemicals for Targeted Drug Delivery' (Poster Presentation)	International Conference on Recent Trends in Biotechnology, Energy and Environment (ICBEE-2020) B.S Abdur Rehman Crescent Institute of Science and Technology, Chennai	18.02.2020-19.02.2020
24.	Dr.Shoba Narayan	'Corticosteroid Encapsulated Metal-Polymer Nanostructures for Dental Naseem Banu, Ramyashri and Shoba Narayan Regenerative Applications" (Poster Presentation) (Best Poster presentation)	International Conference on Recent Trends in Biotechnology, Energy and Environment (ICBEE-2020) B.S Abdur Rehman Crescent Institute of Science and Technology, Chennai	18.02.2020-19.02.2020
25	Dr.Shoba Narayan	Saraswathi N, R Murugesan and Shoba Narayan .Synthesis and Characterization of Ligand Conjugated Sensor Nanoparticles for Microbial Detection	International Conference on Nano Science and Technology under the aegis of DST Nanomission, Govt. of India SN Bose National Centre for Basic Sciences	March 5-7, 2020
26.	Dr.Shoba Narayan	Geeva, R Murugesan and Shoba Narayan. Nanovehicle for Enhanced	International Conference on Nano Science	March 5-7, 2020

		Drug Delivery Across the Blood Brain Barrier	and Technology under the aegis of DST Nanomission, Govt. of India SN Bose National Centre for Basic Sciences	
27.	Dr.Dr Shoba Narayan	Chlorogenic acid- loaded calcium phosphate chitosan nanogel as biofilm degradative materials/ Palaniraj, S., Murugesan, R. and Narayan, S/ The international journal of biochemistry & cell biology, 114, 105566.	Sep/2020	3.673
28.	Dr.Shoba Narayan	Azacytidine incorporated polycaprolactone-gelatin nanoscaffold as a potential material for cardiomyocyte differentiation/ Rachel K, Pathak S, Moorthi A, Narasimhan S, Murugesan R, Narayan S./ J Biomater Sci Polym Ed. 2020;31(1):123-40.	Jan/2020	2.690
29.	Dr.Ramakrishnan.V.	Srivarshini G, Sanju Shree R, Ramakrishnan.V. "The Emerging Role of RNA Editing in Cancer Therapy" "National Symposium on Bio-prospecting from marine resources for biotechnological application: Opportunities and Challenges on 24th and 25th July 2019, Center for Drug Discovery and Development is organizing a Department of Biotechnology (DBT), Government of India	24th and 25th July 2019, Sathyabama Institute of Science and Technology, Chennai.	

		sponsored, Sathyabama Institute of Science and Technology, Chennai.		
30.	Dr.Ramakrishnan.V.	Barath and Ramakrishnan.V. "A Novel Research on Octopus in Alzheimer's disease" National Symposium on "Bio-prospecting from marine resources for biotechnological application: Opportunities and Challenges on 24th and 25th July 2019, Center for Drug Discovery and Development is organizing a Department of Biotechnology (DBT), Government of India sponsored, Sathyabama Institute of Science and Technology, Chennai.	24th and 25th July 2019, Sathyabama Institute of Science and Technology, Chennai.	
31	Dr.Ramakrishnan.V.	Salma shafron banu.K , Ramakrishnan.V. "Update on Natural Marine Products for Skin Cancer Treatment" National Symposium on Bio-prospecting from marine resources for biotechnological application: Opportunities and Challenges on 24th and 25th July 2019, Center for Drug Discovery and Development is organizing a Department of Biotechnology (DBT), Government of India sponsored, Sathyabama Institute of Science and Technology, Chennai.	24th and 25th July 2019, Sathyabama Institute of Science and Technology, Chennai.

AWARDS, MEDALS AND HONOURS RECEIVED BY FACULTIES AND STUDENTS IN ACADEMICFIELD

Awards, Medals and Honours Received By Faculties

Sl. No.	Name of the Faculty	Details of the Awards, medals and honour,s	Date
1.	Dr. Antara Banerjee	INVITED SPEAKER, IN Indo-US International Conference on "Bioengineering & Regenerative Medicine-2020", IIT (BHU), Varanasi, Uttar Pradesh, India.	February 27-29, 2020
2.	Dr. Antara Banerjee	Lifetime member, Indian Association of CancerMedals,rch (IACR).	
3.	Dr. Antara Banerjee	Member of World antiagingIndoty (AMS).	
4.	Dr. Antara Banerjee	Keynote speaker "Stem Cell Research" Organised by Meetings International, UAE, and Singapore.	November 23, 2020
5.	Dr.Surajit Pathak	Lifetime member, Indian Association of Cancer Research (IACR).	February, 2020
6.	Dr.Surajit Pathak	Member of World antigaing Society (AMS), EuroMedicon, Paris	March, 2020
7.	Dr.Surajit Pathak	Examined PhD thesis University of Burdwan, West Bengal, India	123, 20200

Awards, Medals and Honors Received By Students

Sl. No.	Name of the Student	Details of the Awards, medals and honours	Date
1.	Mr. Saantiaging	Guest of Honour for presenting a research paper titled, "Efficacy Of Emotional Ph.D. Enhancement Intervention Along With Cognitive Behaviour Techniques For Children With Autism Spectrum Disorder" in the 3 rd BMI International Autism Conference by Beh Medals Momenthonors Foundation, Hyderabad, India.	Honour for Feb 2020 conducted
2.	Sushmitha S	Lady TATA research fellowship	June 2019
3.	Harini K	K. Harini, P. Sharmiladevi, Koyeli Girigoswami, Agnishwar Girigoswami*, ROS Quantum Yield Improvement of Rhodamine Using Niosomal Nanoformulation for the Inactivation of MDR Bacteria, International Conference on Advanced Nanomaterials for Energy, Engineering, Biological and Medical Applications, 12 th - 13 th Dec 2019 held at Chettinad College of Engineering and Technology, Karur. (Best Oral Presentation)	13.12.2019
4.	Tanzil Rubab	Tanzil Rubab and Koyeli Girigoswami, The potential of engineered ZnO nanoflowers in insulin amyloid degradation, International Conference on Applications of Biotechnology and Nanotechnology (ICBN 2019), Sponsored by Tamil Nadu State Council for Science and Technology (TNSCST), 30 th September- 1 st October, 2019 held at B.S. Abdur Rahman Crescent Institute of Science and Technology, Vandalur, Tamil Nadu, India. (Best e-poster Award)	01.10.2019
5.	Jino Affra Id.R	Dr Kalam Educational Trust (Dr KET) Best Student award at UG level	18-10-2019
6.	Naseem Banu	Best Poster Award International Conference on Recent Trends in Biotechnology, Energy and Environment (ICBEE-2020)- B.S Abdur Rehman Crescent Institute of Science and Technology, Chennai	18 and 19 -02-2020

School of Pharmaceutical Sciences

Chettinad Academy

of Research and Education
(Deemed to be University)

CHETTINAD SCHOOL OF PHARMACEUTICAL SCIENCES

ABOUT SCHOOL OF PHARMACEUTICAL SCIENCES

The School of Pharmaceutical Sciences aims to be a pre-eminent college of pharmacy and be the global leader in pharmacy education, research, and service, committed to providing a transformative learning experience in a collaborative and diverse environment focused on developing leaders in pharmacy to address the medication and health needs of the citizens.

With the power to help shape modern medicine, pharmaceutical professionals are becoming a more integral part of the health care team. As a student, you have the opportunity to learn the full spectrum of the pharmaceutical industry, including business, legal, technology, research and development, and patient care. You will learn about the most advanced technology available and with wide-ranging clinical opportunities, you will gain hands-on experience, so you can begin your career with confidence.

The innovative curriculum integrates foundational knowledge in the pharmaceutical sciences with information and skills in the clinical, analytical, and biomedical sciences. The School of Pharmaceutical sciences is also committed to generating a rate of new knowledge through our research activities in the various fields of pharmaceutical sciences.

Graduate students have the opportunity to learn the latest research methods in our state-of-the-art facilities and contribute to our goal of improving health by preventing and optimizing the treatment of disease.

MISSION

The mission of the School of Pharmaceutical Sciences is to be the national center of excellence in preparing graduates for a life-long professional career in pharmaceutical care that is in tune with the needs of society. The School provides an excellent learning environment conducive to the pursuit of professional competence while providing services to the community and undertaking relevant translational research for the enhancement of health. The School will also endeavor to establish training programs in the field of pharmaceutical sciences, lending support to the human resource development initiatives of the country.

The key objectives of the School of Pharmaceutical Sciences are:

- To inspire excellence through experiential learning
- To support and enhance the partnerships with the pharmaceutical industry for innovations
- To promote translational research to foster the diversified care sector
- To empower students to capitalize on entrepreneurial spirit
- To promote and reward continuous quality improvement

INDUCTION PROGRAMME

PURPOSE

The purpose of the faculty-student mentor-mentee system is to provide guidance to students on academic matters and to foster a close and constructive professional relationship between students and the staff of the Faculty. While all lecturers in the Faculty are potentially academic advisors to all students who seek their advice, each lecturer (mentor) is assigned particular responsibility to a small group of students (mentees).

ROLES OF MENTORS

In essence, the key roles of mentors are to:

1. Assist their mentees to gain an understanding of the curriculum, the faculty's expectations of its students, and the student's requirements (for example, in respect of its student registration system);
2. Provide advice and guidance to students regarding academic matters;
3. Provide feedback and opportunities for reflective review following the release of End-of-Block and End-of-Posting results;
4. Assist students in solving problems and, when necessary, refer them to an appropriate authority or resource person;
5. Perform any other functions as required by the Faculty.

RESPONSIBILITIES OF MENTEES

All students are encouraged to meet with their mentors, regularly to discuss their learning progress including any academic problems encountered.

STUDENT ACTIVITIES

25th September 2019 – World Pharmacists Day celebrations at CARE

The students and faculty of Chettinad School of Pharmaceutical Sciences celebrated World Pharmacists day on 25th September 2019. First-year B.Ph students created and displayed collage posters on the theme of "Safe and Effective Medicines for All". The posters were very informative, visually striking, self-explanatory and were on display at the Atrium, College Block between 10 am and 12 noon.

27th September 2019 Sapling Plantation Drive

To add to the enviable collection of medicinal plants thriving in the Herbal Garden of CARE, the faculty and students of Chettinad School of Pharmaceutical Sciences organized a sapling plantation drive on 27th September 2019 within the CARE campus. The purpose of this drive was to plant flowering medicinal plants which will be tended to by the students themselves, instilling in them a sense of responsibility and ownership while acquiring knowledge.

29th to 31st October 2019 - Meditation classes for Pharmaceutical Sciences and Physiotherapy students of CARE.

Heartfulness is a heart-centered approach to life and enables the person to live every moment

by the heart. Through this, we live naturally and our life is enriched by superior qualities such as compassion, sincerity, contentment, trust, and courage, us to follow a simple and subtle practice of meditation that connects each of us with the light and love in our hearts.

19th and 20th October 2019 – IPR Olympiad

Chettinad Institution Innovation Council (CIIC) organized a two day Intellectual Property Rights (IPR) – Olympiad Online Examination for Undergraduates in association with Intellectual's Society for Entththree-days Research Development (ISERD), New Delhi. This Olympiad targeted undergraduate students from Chettinad School of Pharmaceuticals, Faculty of Allied Health Sciences and Chettinad,School of Law and was conducted on the 19th and 20th of October 2019.

STUDENT OUTREACH ACTIVITIES

25th September 2019 - Outreach Program

Chettinad School of Pharmaceutical Sciences conducted an awareness program on "Safe and Effective Medicines for all" for the students of class 10 and classes BKMclassesol, Kelambakkam on 25th September 2019. The First-year Pharm students mime show on the safe and effective use of medicines. They also gave speeches in Tamil and English to emphasize the role of pharmacists in the health care sector. CARE wholeheartedly believes that this outreach program conducted by our students will contribute in its way to reduce the risk of irrational use of medicines.

25th October 2019 – CARE Shares – Diwali Celebrations at Anbagam

To experience the joy of sharing and spread the light of wellness and happiness, faculty and students of Chettinad School of Pharmaceutical Sciences organized Diwali celebrations at Anbagam Home, which is located at Panangattupakkam, Kayar Road on 25/10/2019. Anbagam is a special school with residential facilities for retarded and multiple disabled individuals and is under the administration of the All India Physically Handicapped Welfare Trust. The Undergraduate students of Pharmacy school distributed sweets and snacks to all the inmates who were sheltered in the home. They also entertained them with songs, dance and gifted them specially handcrafted gifts which had been creatively put together by the students themselves. Such trips help the young generation to realize the value of life, both physical and mental, and to appreciate the value of small possessions that may seem insignificant at times. The students were grateful for the enriching experience and to Dr.P.Veeramani, founder and Director of the Institution for allowing them to meet and interact with the people in need.

As per the guidelines of UGC and University norms, Credit based system with core and elective subject teaching patterns in the curriculum of our both UG and PG program are followed. We are having a well equipped air-conditioned classroom, seminar hall, and demo room with the internet-connected learning management system.

Mentor-Mentee System

Mentor mentee system for students with the one to one method of contacting each student and giving space to them to express their difficulties during the learning process.

Value-Added Program

As per the recommendations from the UGC and the University regulation, apart from the curriculum, we are making the students participate in a value-added program like Personality enhancement program, Tai- Chi, Meditation, and basic concepts of exercise physiology & fitness training in a periodical manner with the credit hours of 20 – 30 hours.

Clinical Skill Training

Guidance for students to do their clinical postings along with the theory classes simultaneously. The undergraduate students are posted in the varying departments in our Chettinad Hospital and Research Institute as a clinical observer from the 3rd semester onwards and the 1st semester onwards for the postgraduate students.

Swayam Portal

Students enrolled in short-term courses from the Swayam portal to enhance the knowledge and multi-talented skills for the current professional value.

RESEARCH AND ORIENTATION

Also the vertical orientation of education, we are encouraging the horizontal orientation of education by following the interdisciplinary research and learning methods to the students.

EXISTING RESEARCH PROJECTS BY THE STUDENTS

The research scholars are enrolled in the varying research projects related to the physiotherapy intervention in the cancer subject, women's health-related problem, renal rehabilitation, and sports injuries subject respectively.

EXISTING RESEARCH PROJECTS BY THE FACULTY

Currently, Research project:

Sports injury and training strategy with the multi-modal exercise protocol.

FDP

Conducted faculty development program in the recent updates of Physiotherapy techniques and Teaching Pedagogy.

EXTENSION/OUTREACHED ACTIVITIES

at Sathyabama University (06.03.2020)

Paper Presentaion – Fourth National Post Graduate and First International
Criminology Conference (06.03.2020)

GMU International Maritime Arbitration Competition (06.03.2020 – 08.03.2020)

Guest Lecture on Indian Divorce Act 1869 and the Special Marriage Act 1954 with an Overview of Family Law (09.03.2020)

National Workshop on Alternative Dispute Resolution (11.03.2020)

Research Skills

ADR at Crossroads: Strategic Considerations for Indian and Southeast Asian Parties (07.04.2020)

LIST OF ORGANIZED PROGRAMMES & WEBINARS

Inauguration of Chettinad School of Law (19.08.2019)

Workshop on Medical Negligence (20.08.2019)

Sapling Plantation(22.08.2019)

Capsule Course on Jurisprudence: (09.09.2019)

Workshop on Communication and Personality Enhancement Programme
(28.09.2019)

Field Trip – Police Station Visit (22.11.2019)

Guest Lecture on Indian Contract Act, 1872 (29.02.2020)

Guest Lecture on Criminal Justice System (12.03.2020)

Guest Lecture on Mediation as a method of Dispute Resolution (13.03.2020)

CHETTINAD SCHOOL OF ARCHITECTURE

For the period (1st August 2019 to 31st July 2020), there had been various programmes carried out and attended by the faculty, the Department, and the Students of Chettinad School of Architecture. These Programmes are in the form of Institutional visits, Thesis reviews, Workshop, Webinars, and Site Visits.

The following table gives a detailed report of all the activity of the department:

STUDENT EVENTS

Semester-1 & Semester-2			
Date	Program	Place	Conducted by
06-09-2019	Workshop: Canvas painting	CCSA	Artist. Jagadhesh
11-09-2019	Induction programme	CSoA	Faculty of Architecture
13-09-2019	Workshop : Ceramic models	Dakshinachitra	Artist. Potrarasan
26-09-2019	Leewardists ("Learning Pre-Design")	Mohamed Sathak AJ Academy of Architecture.	Ar.Anuj&Ar.Shreya
15-11-2019	Workshop ;Thermacol carving (Elephant Model)	CSoA	Artist. Potrarasan
29-11-2019	Workshop : wall art	CSoA	Artist.Rangarajan
10-12-2019	Historical Documentation(Visited Shore temple,PanchaRatha,Varaha Cave, Descent of the Ganges &Krishna's Butter Ball)	Mahabalipuram	
12-12-2019	Workshop: Light box	CSoA	Artist.Rangarajan
13-12-2020	Guest Lecture	CSoA	Ar.AparajithanNarasimhan
31-01-2020	Workshop (Parametric Design)	CSoA	
05-02-2020	Educational Tour: Café and Dakshinachitra	ECR and Dakshinachitra	
11-11-2-20	Induction programme	CSoA	Faculty of Architecture
15-02-2020	Case study : Visited Cafe	Case study to Café	
18-02-2020	Guest lecture: "Design Process" and "Site Planning"	CSoA	Ar. Suresh Radhakrishnan

02-03-2020	Guest lecture : Design Approach	CSoA	Ar.Hema
06-03-2020	Transparence (Organized by Saint-Gobain Glass India and ably supported by Ethos)	Visited to Hindustan School of Architecture	
09-03-2020	Institution Visit display of Students work done by Ahmedabad.	School of Architecture and Planning, Anna University.	
18-03-2020	Guest lecture : Architect-Student Interaction	CSoA	Ar.T.R. Palaniappan

STUDENT ACHIEVEMENTS

Semester-1 & Semester-2			
Date	Programme	Place	Conducted by
03-03-2010	Sports (Football events: Chet Futsal)	CSoA	

FACULTY EVENTS

The following table gives the detailed report of the activity conducted by the department and the faculty.

Staff Name	Position	Department Programmes (Webinar Conducted by department)	Attended On
Ar.Loganathan.T	Dean & Professor	Life as a creative pursuit (Webinar)	16-05-2020
Ar.Vaidyanathan Kannan	HoD & Associate Professor	Online counselling session for career prospects in Architecture (Webinar)	27-05-2020
Ar.Radhika	Assistant Professor	Insights into Architectural studies. (Webinar)	03-06-2020
Er.Maidili.A	Assistant Professor	Architecture - Desired Profession and Studies (Webinar)	10-06-2020
		Career Prospects in Architecture Studies (Webinar)	17-06-2020

		The Psychological Impact of Architectural Design (Webinar)	27-06-2020
		The Contemporary Trends in Communication (Webinar)	04-07-2020
		Art-A Journey with Architecture (Webinar)	29-07-2020
		Open house	07-02-2020

Staff Name	Position	Programmes	Attended On
Ar.Loganathan.T	Dean & Professor	Prime college of Architecture, Nagapattinam (Thesis External Review)	10-02-2020, 11-02-2020, 24-02-2020, 25-02-2020
		School of Architecture (Sathyabama deemed to be university.)	30-01-2020 19-02-2020

RESEARCH FACILITIES

RESEARCH LABORATORIES

- Molecular Diagnostics Laboratory
- In vivo animal imaging Laboratory
- Bionanotechnology and high through-put screening laboratory
- High performance computing lab for biomarker discovery & Drug Designing
- Tissue Culture Laboratory
- Microbial Genomics Laboratory
- Genographic Laboratory
- Preclinical laboratory (Neuropharmacology)

INSTRUMENTS

UV-VIS spectrophotometer for the investigation of nanomaterial

Malvern nano ZS90: Measuring nano particle size**Bruker alpha FT-IR spectrometer for development of bio nano composites**

Eppendorf Gradient PCR for Medical Diagnostics

ABI 9700 HT fast real time PCR for SNP detection and DNA Analysis

ABI 3130 xl 16 capillary Genetic Analyzer for DNA sequencer**Small Animal Imaging System for anatomical and molecular imaging in live animals to initiate preclinical research**

UVP gel imaging system for DNA & Protein Analysis

Olympus Fluorescence microscope for Karyotyping & FISH

Dell Precision T3610 Workstation for high throughput computing for Biomarker discovery & drug designing

Bioinformatics lab with high bandwidth for biomolecular modeling

Jasco Fluorometer with Microplate Reader for Biomarker Development

Biosafety Cabinet & CO2 Incubator for cell and tissue culture for in vitro studies

D10 HbA1c Analyzer for Clinical Diagnosis & Research

Shimadzu HPLC for active components analysis

VTEK2 for fast Identification and Antibiotic Susceptibility

High Speed Cooling Centrifuge

Eppendorf -80 C Ultra Low Temperature freezer to store biological samples

Technico Autoclaves

Cleanair Laminar flow cabinet for basic culture work

Microscope for Tissue culture Facility

Elisa: Robonik Readwell Touch™ Automatic ELISA plate Analyser for routine immunoassays, biochemicals, hormones and drug levels can be carried out as it's versatile and extensive software support.

Precision Techno high temperature Muffle Furnace: Used for solvent removal, sterilizing, evaporation, polymer curing, polyimide baking, testing the sample at high temperature and to determine the percent of ash content in the synthesized material

Eppendorf Centrifuge for Molecular Studies

Powersol Egg Incubator: To study the process of angiogenesis and to observe the effects of pro-angiogenic and anti-angiogenic factors.

CARE AND OTHER FELLOWSHIPS

RESEARCH GRANT (GOVT/NON-GOVT/PVT)

Sl. No.	Name of the Project/ Clinical Trial/ Endowment/ Chairs	Name of the Principal Investigator/Co Investigator	Name of the Funding agency	Type (Government /Non-Government etc.,)	Funds provided (INR in Lakhs)
1	Evaluation of Siddha herbal formulation, Vipro, in the management of uncomplicated respiratory infections	Dr.R.Arunkumar	Qscience Therapeutics	Non-Government	5,30,000
2		Dr.R.Arunkumar	Capital Health Services Private Limited	Non-Government	1,57,875
3	J.C. Bose Fellowship	Dr. N.R.Jagannathan	J.C. Bose Fellowship	Government	36,60,000
4	Free basic blood parameters check up for the irulas (snake catchers) residing at Pudupakkam	Dr. Koyeli Girigoswami	MHRD	Government	1,00,000
5	Evaluation of impact of coastal pollution on human health	Dr.R.Arunkumar	NCCR	Government	1,00,00,000

6	Development and Application of Multiscale Modeling for Complex Biological Systems and Drug Design	Dr. Pandian Sokkar	DST-SERB (Start-up Research Grant)	Government	21,01,000
7	J.C. Bose Fellowship	Dr. N.R.Jagannathan	J.C. Bose Fellowship	Government	16,74,316
8	Antiviral activity of O-sulfated low molecular weight chitosan from industrial waste of cephalopods against herpes simplex virus in vitro	Dr. R. Saravanan	DBT	Government	28,00,000
9	Synergistic effect of nano-formulated kaempferol and combretastatin on anti-angiogenesis: in vitro and in ova approach.	Dr.Gowthamkumar.S	DST-SERB	Government	46,26,000
10	Chitosan/alginate matrix containing copper doped hardystonite from agricultural waste for Bone Tissue Engineering.	Dr. A. Moorthi	CSIR	Government	3,90,000
11	An approach towards investigating the interplay between microRNA 122 and AEG-1 protein in colon cancer progression	Dr.Surajit Pathak	DST - SERB-EMR	Government	30,66,884
12	Role of TAZ protein as a stemness factor in human umbilical cord derived mesenchymal stem cells and its potential role in wound healing in personalised medicinal system	Dr.Surajit Pathak	DST (Indo - Italian)	Government	10,80,000

13	Role of human umbilical cord mesenchymal stem cells (UC-MSCs) and UC-MSC derived conditioned medium in regulation of colon cancer progression: An approach towards elucidating function of paracrine factors and epigenetic regulators	Dr. Antara Banerjee	DST-SERB-ECR	Government	33,52,800
14	Formulation of nanoparticle-based probe for multimodal imaging and therapy	Dr. Agnishwar Girigoswami	CSIR	Government	6,00,000
15	Prevalence of cyp2d6 and cyp2c19 genetic polymorphisms among patients with depressive disorder and its influence on side effects and efficacy of selective serotonin reuptake inhibitors	Dr. Kailash S Dr. Arunkumar R Dr. Moorthi A	The Willington Charitable Trust	Non-Government	10,00,000
16	Anti-microbial Properties of the Small Proteins of Escherichia coli	Dr. Meenakshi. N Dr. Vasanthi Rompicherla	Paropakar am	Non-Government	11,00,000
17	Assessing the safety and efficacy of electrospun nanofibers loaded with growth factors for diabetic wound treatment- a preclinical study	Dr. S. Weslen Vedakumari Dr. Anantharamakrishnan R	Paropakar am	Non-Government	14,00,000
18	Exploring the association between urine and cervical sample metabolome in precancerous cervix infected with high risk human papillomavirus	Dr. Shiek Fareeth Ahmed Dr. Vijayalakshmi.K	The Willington Charitable Trust	Non-Government	12,00,000

19	An analysis of adenosine receptor gene polymorphisms in preterm neonates treated for apnoea of prematurity with caffeine citrate	Dr. Gridhar S Dr. Ramakrishnan V	The Willington Charitable Trust	Non-Government	10,00,000
20	Molecular Diagnosis for rare Pediatric diseases	Dr.Alexander. M Dr. Ramakrishnan V	The Willington Charitable Trust	Non-Government	13,10,000
21	Nanoflower platform for ultrasensitive multi-optional biosensing'	Dr.Koyeli Girigoswami Dr.Agnishwar Girigoswami	The Willington Charitable Trust	Non-Government	10,80,000
22	Porous Bionanocomposite For Enhancing Blood Flow and Facilitating Cardiomyogenesis	Dr. Shoba Narayan Dr. Chokkalingam M Dr. Vijayashree R	The Willington Charitable Trust	Non-Government	10,50,000
23	Development of nanocomposite of chitosan, Silibinin and Hedenbergite ceramic for dental and orthopedic applications	Dr. Moorthi A Dr.Venkatachalam.K	The Willington Charitable Trust	Non-Government	12,90,000
24	Prevention of Dementia among Elderly people: Focus on Lifestyle and leisure time activities using Behaviour Technology	Dr. C. N. Ram Gopal Dr.Shabeeba.Z	The Willington Charitable Trust	Non-Government	11,00,000
25	Screening of anti-diabetic compounds from seaweeds	Dr. Saravanan R Dr. K. Kumar Ebenezer Dr.MaignanaKumar.R	The Willington Charitable Trust	Non-Government	11,70,000
26	Computer-aided Design of Membrane Acting Antimicrobial Peptides	Dr. Pandian S Dr.Vasanthi Rompicherla	The Willington Charitable Trust	Non-Government	10,00,000
27	Development of gold-nanoparticles-based assays for point of care diagnostics	Dr. Hikku G S Dr.Karpagavel.L	The Willington Charitable Trust	Non-Government	15,50,000

28	Comparative study of efficacy of modified Smead jones technique versus conventional closure of midline laparotomy wound	Dr.Thinagaran.K	The Willington Charitable Trust	Non-Government	9,30,000
29	Comparison of effect of topical insulin with normal saline dressing in diabetic foot ulcers: randomised control study Assessment of outcome of Curcumin dressing versus saline dressing in the management of diabetic foot ulcer	Dr.Anantharamakrishnan.R Dr.Senthil Kumar.K Dr.Ramasubramanian.K Dr. K. Kumar Ebenezer	The Willington Charitable Trust	Non-Government	8,00,000
30	Studies on comparative evaluation of different hernia repair techniques	Dr.Ragumani.P Dr.Prabakar.A Dr.Thinagaran.K	The Willington Charitable Trust	Non-Government	8,00,000
31	Prevalence of Helicobacter Pylori in patients with dyspepsia associated with lifestyle and socioeconomic status	Dr.Premalatha.S Dr.Raja.D	The Willington Charitable Trust	Non-Government	8,00,000
32	Evaluation of clinical scoring system and assessment of the severity and outcome in patients with acute appendicitis	Dr.Muralidhar.V Dr.Natarajan.R	The Willington Charitable Trust	Non-Government	7,00,000
33	Factors predicting difficult laparoscopic cholecystectomy: A prospective study in a tertiary care center	Dr.Varadaraju.P Dr.Kishore Babu.E.P	The Willington Charitable Trust	Non-Government	7,50,000
34	Case control study on the contribution of genetic mutation in pataitin like phospholipase a3 domain in the development of cirrhosis in chronic	Dr. Vigneshwaran.J Dr. Moorthi A	The Willington Charitable Trust	Non-Government	8,40,000

	alcoholics in indian population.				
35	A case control study on the role of genetic polymorphism as a risk factor for the development of COPD	Dr. Vigneshwaran.J Dr.Mohan Rao.V.R Dr. Moorthi A	The Willington Charitable Trust	Non-Government	8,00,000
36	A study on the association of certain virulence factor genes in the development of recurrent uncomplicated e.coli urinary tract infection	Dr.Senthil Kumar.K	The Willington Charitable Trust	Non-Government	8,30,000
37	A Clinically Applicable Predictive score in lumbar Disc Disease in Formulating a surgical Plan	Dr.M.H.Subramanian	AOSPine Research Grant	Non-Government	1,77,350

EXAMINATION

This report provides a snapshot of the major activities and accomplishments of the Examinations Section of CARE and forms a testament to the systematic planning and execution of the various activities of the examination system.

It would be convincingly appropriate if a few lines are shared about the petrifying outbreak and the impact of COVID-19. For the sake of the safety of the student community, faculty, and staff, our university wisely decided to reschedule the academic calendar for the year 2019-20 which resulted in the blanket postponement of examinations to be held during March, April, and May 2020.

The Examination Section carried out its obligations with a high degree of professionalism in respect of the preparation and announcement of examination schedules, time tables, registration of students for the regular and arrear papers, issuing Hall Tickets, question paper setting, conducting examinations both theory and practicals as per the time tables and evaluation of answer scripts by competent examiners and time-bound publication of results and addressing the grievances of students in the assessment process.

The total number of programs offered by the university during the academic year 2019-20 was 60 out of which 31 were under semester pattern and 29 were under annual pattern. Our university witnessed the next phase of its growth with the establishment of Schools for Law, Architecture, Physiotherapy, and Pharmacy from the academic year 2019-20.

The list of students admitted to various programs in the year 2019-20 with relevant details was received from Registrar's office and appended to the database of students for the examination process. All the changes in the curriculum and the regulations for the newly started programs were received from the Heads of constituent colleges/schools. Necessary steps were taken to update the panel of question paper setters and examiners for theory and practical examinations.

EXAMINATIONS TIMETABLES AND ISSUING OF HALL TICKETS

The Time Tables for various examinations were published through notice boards, websites, etc. 30 days and 45 before the commencement of examinations for a semester and annual examinations respectively. The application forms for the university examinations containing the details of papers the students have to appear including regular and arrear papers of semesters/years if any, were uploaded on the university website and this enables easy remittance of exam fees online by the students. The attendance particulars and the internal assessment marks of the students are received from the constituent institutions through an intranet. Based on this the Hall Tickets for university examinations were generated and issued to the students through their respective institutions.

REFORMS IN CONDUCT OF EXAMINATIONS

The examination reforms implemented by the Examination Section during the year 2019-20 are listed hereunder.

1. Examination application forms uploaded on the university website to facilitate students to pay the examination fees through online banking as a step towards a paperless office.
2. Seating arrangements for the examinations are displayed on the university website on daily basis to provide a hassle-free examination environment to the students.
3. Providing photocopy of answer scripts of university examinations to the students thereby enhancing the transparency of the evaluation process.
4. Revaluation of answer scripts of university examinations facilitating a channel to students for revision of marks awarded.
5. The schedule of examinations includes the date of publication of results, a firm commitment to the students.
6. Tailoring the Examinations Management Software to cater to the changing requirements of regulations of the programs offered both existing and new.

OUTREACH ACTIVITIES

Community organizing involves the process of building a grassroots movement involving communities. The community engagement primarily deals with the practice of moving communities toward change, from either a stalled or similarly suspended position. It enables the health care services to be delivered in an equitable, acceptable and better organized manner bringing more people into the umbrella of better health care. It helps in building social capital-ties, network and support which can be used in providing and sustaining the health care services.

General health camps are being conducted regularly to provide medical relief and referral services to all these residents along with the available specialist doctors, a medical officer and a dentist accompanies to the camp site and the CRRIs, Post graduates, and the Medico-social worker of Community medicine department attend the camp to oversee the activity. During the medical camp all the patients given free consult with our institution Doctors and free treatment. Important Health days are celebrated in our centres by imparting Health education through posters and AV aids to the community members. Health education was given main priority in celebrating the health days, and during certain health days, nearby high-risk targeted areas have been identified, and the campaigns are conducted to the targeted people in preventing the diseases. For Control and prevention of diseases, training of community members in various skills like handwashing, breast self-examination etc. were demonstrated and conducted in field practice areas.

School health camps are conducted on Thursdays and they aid in assessing the health status of school children by screening them for diseases. Base line treatment for all students is also provided. School washrooms and toilets are inspected for proper hygiene. Proper waste disposal awareness given in all the schools. By collecting and analysing the data from schools, Health education sessions are organised in those schools, on the topics of personal hygiene and risk factors for diseases. School health camps are conducted mainly in the perspective of reducing the burden of many preventable diseases.

The undergraduate and postgraduate students are sensitized to this outreach activity which exposes them to the cultural beliefs and practices of the community. By participating in community engagement, the students develop an awareness about their responsibilities toward the community that they are so closely a part of. This helps enhance their communication skills, organizing, handling and making use of the resources at hand and it is an important tool in capacity building. They become sensitive to the needs to needs of the community and learn to do their part in helping their community.

ALUMNI EXCELLENCE

The following Alumni members of the Chettinad Academy of Research and Education (CARE) have performed well in the all India NEET SS exams and have made the Association and our Institute happy and proud.

ALUMNI MEET 2020

"College reunions are necessary because you can't hug a friend on Facebook." 'Confluence'- the Alumni Meet-2020 organized by ALASCA (Alumni Association of CARE) was astounding and full of stupefying moments. Dance, Music & ceaseless fun-chats were the delight of the event that made it memorable. In presence of all faculties, the event commenced with cultural performances soothing the ambience, followed by various games played between the alumni's and their spouses who had come along. "The Elite Grand" banquet hall filled with nostalgia as reminiscing speeches of alumni's made everyone look back at the years passed.

ALUMNI MEET 2020

The Alumni Association held a medical camp on 6th March, 2020 in Chennai at a Home and School for people with Special Needs. Which was conducted by the Team of Alumni Doctors including Dr. Ramprasath, Dr. Nagarjun, Dr. Sivabackia, etc., accompanied by Nursing staff and CRRIs and the President of Alumni Association, Dr. Rajesh Kannan and by Dr. Buvnesh (Dept. of Community Medicine).

Around 150 Children from the school were medically examined and treated for any illnesses. The Teachers and Helpers were motivated and appreciated by the team. The Alumni members had a friendly interaction with the members and children of the Home before departing.

CONCLUSION

Chettinad Academy of Research and Education has made significant contributions towards the cause of higher education of our country. The University functions within the framework of the norms of concerned statutory bodies.

The infrastructure, ambience, faculty strength, resources and research facilities focus on rapidly developing facets in the field of science and technology. The programs are therefore designed towards ensuring that this deemed to be university has carved a niche in the field of higher education. This is evident from our accreditations such as NAAC and approvals such as MCI, INC.

The sustained growth in all fronts is reflected in improved research output, offers of lucrative jobs for qualified graduates and the demand for the courses in emerging areas. Inculcating a spirit of scientific enquiry and thirst for further knowledge has ensured that a sizeable number of graduates have opted for further specialization in selected areas of interest or in research.
