INSTITUTIONAL HUMAN ETHICS COMMITTEE

Minutes of the meeting held on 23.7.2021

Members Present:

- | | |
|-----------------------|------------------|
| 1. Dr.A.Ruckmani | Member Secretary |
| 2. Dr.Mohanrao | Member |
| 3. Dr.Vijayashree | Member |
| 4. Mr.D.Sathish Kumar | Member |
| 5. Dr.James Kurian | Member |
| 6. Mr.ArulSahayam | Member |
| 7. Mr.R.Venkatraman | Member |

The online Zoom meeting was started at 9 am. The member secretary welcomed the Chairperson and the members of the committee

Name	Title	Comments
V.MridullaAbirami	A cross sectional study on sexual dysfunction and quality of life in patients with Bipolar affective disorder	To rewrite informed consent and submit

Dr.J.Mohan	clinical evaluation of efficacy and safety of chloroquine add on therapy to standard anti tuberculosis treatment in newly diagnosed pulmonary tuberculosis patients	To submit Informed consent
C Suja	Immunological profile in software professionals	To define IT professional. To include control group. To submit informed consent
SriramMuthukaruppan. S	An Observational Study to Assess the levels of Interleukin 17A in Acute Coronary Syndrome	Cost of estimation of IL-17 should not be borne by the participants. To submit informed consent
Dr.Thammireddygarivaishnavi	Correlation of lipoprotein A and homocysteine levels in predicting the risk of atherosclerosis and reducing the cardiovascular disease incidence in patients with chronic kidney disease	To specify the methodology to assess the risk of atherosclerosis and the incidence of CVD in patients with CKD.
PADMATINTI MANOJ KUMAR	CAUSAL ASSOCIATION OF SERUM LIPIDS IN PATIENTS WITH ACUTE ISCHEMIC STROKE AND HEMORRHAGIC STROKE-AN OBSERVATIONAL STUDY IN A TERTIARY CARE CENTER	To check for the feasibility of the study and to modify the methodology accordingly.
DR PRARTHANA KV	A COMPARITIVE STUDY OF TOPICAL SUCRALFATE AND ALOE VERA CREAM IN WOUND OF HEMORRHOIDECTOMY PATIENTS IN TERTIARY HEALTH CARE CENTRE "	Mention the measures that will be taken to overcome bias. To use a quantitative score for assessing the wound healing.
Dr. KIRUTHI.K	IMPROVING THE PRACTICE OF DEVELOPMENTAL SUPPORTIVE CARE IN VERY PRETERM NEONATES IN NEONATAL INTENSIVE CARE UNIT (NICU)- A QUALITY IMPROVEMENT STUDY	Dear members The copy of this proposal is attached. Please inform whether this can be taken as a research study as it involves improving quality of a practice.

Dr.SaiSabhari	"TO STUDY THE EFFICACY OF SHAM FEEDING USING SUGARLESS BUBBLEGUM IN REDUCING THE OCCURRENCE OF POST OPERATIVE ILEUS FOLLOWING APPENDICECTOMY".	To mention ingredients in bubble gum. To clarify regarding the cost of the study.
Dr.Divyaparvathy j	Impact of COVID19 on immunisation and nutritional wellbeing among children under 2 years of age in Kelambakkam, Chengalpattu district	Investigator was absent
Dr RaghviAnand	EVALUATING THE OUTCOMES OF CLOSED REDUCTION OF DIFFERENT TYPES OF NASAL BONE FRACTURES	Mention whether the study is retrospective or prospective or combined (retrospective/prospective).
Dr.Karthika S R	A COMPARATIVE STUDY ON ACYCLOVIR WITH STEROID AND STEROID ALONE IN THE TREATMENT OF IDIOPATHIC FACIAL NERVE PALSY IN A TERTIARY CARE CENTRE	To increase sample size. To give rationale and justification for the study and submit
YEDDULA JAGADEESWAR REDDY	SERUM ALBUMIN AND ALKALINE PHOSPHATASE AS A COMBINED PREDICTORS OF SEVERITY AND PROGNOSTIC INDICATOR OF FUNCTIONAL OUTCOME FOLLOWING ISCHEMIC STROKE	Approved
Dr. Angela Grace Abraham	AUDIOLOGICAL ASSESSMENT IN POST COVID 19 PATIENTS- A PROSPECTIVE STUDY	The sample population has to be defined well. Rewrite the methodology and submit.
Raghavan V K	A PROSPECTIVE STUDY ON THE STATUS OF CONTRALATERAL EAR IN OTITIS MEDIA IN A TERTIARY CARE CENTER	Suggested to increase the sample size

Reuben Varghese Joseph	Role of Multi detector CT in evaluation of pancreatic cystic lesion	As the radiology department deals with taking CT and giving report, it is not clear whether all patients who would be undergoing CT abdomen will be operated. How will the investigator correlate with the CT findings and histopathology in such a scenario? Please clarify with the feasibility of doing the study. If it is feasible IHEC recommends to have co-guides from the department of General Surgery and Pathology.
PARMAR BHARAT KUBERBHAI	Application of 3D FIESTA in evaluation of cranial nerves	To submit competency certificate for evaluating 3D-FIESTA.
Dr.A.Sachin Kumar	Quantitative Analysis of Magnetic Resonance Spectroscopy To Differentiate High Grade Gliomas From Single Metastatic Brain Tumor	To submit competency certificate.
DR.GANESH.P	Non invasive assessment with acoustic radiation force impulse elastography of the liver and spleen to identify non cirrhotic portal fibrosis/Banti syndrome /idiopathic portal hypertension and comparison with liver biopsy reports	To submit competency certificate.
DR.AKSHAYA.A	The comparative assessment of efficacy of sonosalphingogram for determination of tubal patency with hystersalphingogram as gold standard.	Change objective according to the title, modify and resubmit
